

Prestera Center for Mental Health Services, Inc.: Biannual Summary

1. Reporting Period: February 1, 2014 – July 31, 2014
2. RFA Number: TI-024757
3. Project Director: Brent Burgess

Program at a Glance

What are the current technologies being utilized by the grantee?			
The grantee currently utilizes two portals: a “MyHealth” portal and an “OneHealth” portal. The “MyHealth” portal provides clients with the ability to see portions of their health record and managed appointments while the “OneHealth” portal is an online recovery community. iPads, webcams, and other videoconference equipment are implemented to enable telehealth services. Additionally, Prestera also uses a certified EHR system, CareLogic.			
Are there any notable changes this reporting period?			
NA			
What are the grantee’s GPRA rates?			
	Target	Actual	Percent
Intakes (Baseline)	200	215	107%
6-Month Followup	87	42	48.3%
If intake or followup is below 80 percent, has the grantee described its plan to increase GPRA rates?			
The 6-month followup rate will increase as clients reach the 6-month mark. Since the program was slow in enrolling clients, many have not reach this period yet.			
Does the grantee need technical assistance? If yes, does the grantee have a request in SAIS?			
The grantee does not need technical assistance.			
Are there any areas of concern in the report that require GPO attention?			
There are no notable areas of concern. The grantee is successfully implementing technology in delivery services to the clients. They are aware of the low 6-month followup rate and are confident the rate will increase in the following months.
