

## Community Health Center, Inc. (CHCI): Biannual Summary

1. Reporting Period: February 1, 2014 – July 31, 2014
2. RFA Number: TI-024740
3. Project Director: Kasey Harding-Wheeler

### Program at a Glance

<b>What are the current technologies being utilized by the grantee?</b>			
The grantee currently uses videoconferencing to educate and train providers and staff, as well as, provide care to clients.			
<b>Are there any notable changes this reporting period?</b>			
N/A			
<b>What are the grantee's GPRA rates?</b>			
	<b>Target</b>	<b>Actual</b>	<b>Percent</b>
Intakes (Baseline)	<i>100</i>	<i>35</i>	<i>35%</i>
6-Month Followup	<i>50</i>	<i>3</i>	<i>6%</i>
<b>If intake or followup is below 80 percent, has the grantee described its plan to increase GPRA rates?</b>			
The program had a slow start, including several months of vacancy for the TEACH BMT Care Coordinator position. Unfortunately, this vacancy prevented enrollment of clients. Now that the position is filled, CHCI anticipates steadier intake and being on target for year 2.			
<b>Does the grantee need technical assistance? If yes, does the grantee have a request in SAIS?</b>			
The grantee does not need technical assistance at this time. A follow-up call was recently conducted on August 21, 2014.			
<b>Are there any areas of concern in the report that require GPO attention?</b>			
It would be beneficial to have follow-up calls with the grantee until the GPRA intake is near or above 80%. Follow-ups can also help gain knowledge on whether or not the program expanded their use of telehealth and employed other types of technology.
