

San Antonio Counsel on Alcohol and Drug Abuse (SACADA): Biannual Summary

1. Reporting Period: February 1, 2014 – July 31, 2014
2. RFA Number: T1024770
3. Project Director: Melanie Lane

Program at a Glance

What are the current technologies being utilized by the grantee?			
The grantee provides e-ROSC services through the Web Oriented Recovery Care (WORC) website. The website features resources, self-evaluation instruments, and a chat function.			
Are there any notable changes this reporting period?			
Two additional recovery coaches were hired as of August 2014.			
What are the grantee's GPRA rates?			
	Target	Actual	Percent
Intakes (Baseline)	150	84	56%
6-Month Followup	3	3	100%
If intake or followup is below 80 percent, has the grantee described its plan to increase GPRA rates?			
The low intake was partly due to coaches keeping clients on their caseloads for a lengthy period of time. This hindered the admission and coaching of new individuals. To remedy this issue, a matrix has been developed to monitor client movement through services each quarter to accommodate new clients.			
Does the grantee need technical assistance? If yes, does the grantee have a request in SAIS?			
This grantee does not need any technical assistance at this time. A follow-up call was conducted recently, on August 19, 2014.			
Are there any areas of concern in the report that require GPO attention?			
There are no areas of concern. The grantee is progressing on their recovery website and implementing a strategy to remedy low GPRA intake rate. The project coordinator is also working with partners who are lagging on admissions. There are also a few issues (i.e., unavailable resources, access to analytics, and discrepancy in measures) with the evaluation piece, but they program staff			

has or is working towards finding solutions to these concerns.
