Program at a Glance

What are the current technologies being utilized by the grantee?			
The Recovery Coaches use iPhones and iPads to maintain contact with clients; however there are iPads located in the central locations of the program, such as the AODA office. There is also an after-hours call system. Telehealth is utilized in Crandon, but is expected to also be implemented at a partner agency. The Website provides resources for the clients, including videos and meetings.			
Are there any notable changes this reporting period?			
There are no notable changes.			
What are the grantee's GPRA rates?			
	Target	Actual	Percent
Intakes (Baseline)	274	188	68%
6-Month Followup	128	45	35%
If intake or followup is below 80 percent, has the grantee described its plan to increase GPRA rates?			
The program is working to increase intake and follow-up through outreach, improved client service technologies, and increased marketing of the program.			
Does the grantee need technical assistance? If yes, does the grantee have a request in SAIS?			
The grantee has not requested technical assistance, but could use the assistance related to intake, follow-up and technology implementation.			
Are there any areas of concern in the report that require GPO attention?			
The intake and follow-up continues to fall well below 80%. Technologies are anticipated to be implemented in December 2014; however, the program progress is extremely slow.
